

## Table of Contents

<b>Table of Contents .....</b>	<b>i</b>
<b>List of Tables.....</b>	<b>ix</b>
<b>List of Figures.....</b>	<b>xiii</b>
<b>List of Abbreviations.....</b>	<b>xv</b>
<b>Chapter 1: Introduction .....</b>	<b>1</b>
1.1 Overview .....	1
1.2 Government Incentives .....	2
1.2.1 Operating Support Schemes .....	2
1.2.2 Investment Support Schemes .....	5
1.3 Opportunity and Risk Indices .....	5
A. Opportunities Indices .....	6
B. Risk Indices .....	7
<b>Chapter 2: Australia .....</b>	<b>9</b>
Executive Summary.....	9
Opportunities Indices .....	9
Risk Indices.....	9
2.1 Incentive Opportunities Index .....	10
2.1.1 Operating Incentives .....	10
2.1.1.1 Tradable Green Certificates .....	10
2.1.1.2 The Solar Credits Scheme .....	11
2.1.1.3 Price of RECs.....	12
2.1.1.4 Changes to the RET in Australia in 2011 .....	13
2.1.1.5 State-level Operating Incentives .....	14
2.1.1.5.1 Australian Capital Territory.....	14
2.1.1.5.2 New South Wales .....	15
2.1.1.5.3 Queensland.....	15
2.1.1.5.4 South Australia.....	15
2.1.1.5.5 Tasmania .....	16
2.1.1.5.6 Victoria.....	16
2.1.1.5.7 Western Australia .....	16
2.1.2 Investment Support .....	17
2.2 Power Market Opportunities Index.....	18
2.2.1 Energy Consumption .....	18
2.2.2 Electricity Sector .....	19
2.2.3 Nuclear Power .....	20
2.3 Technology Opportunities Index.....	22
2.3.1 Renewable Electricity Generation .....	22
2.3.2 Resource Potential .....	22
2.3.3 Levelised Generation Costs .....	23
2.3.4 Wind Power .....	24
2.3.4.1 Onshore Wind Power .....	24
2.3.4.2 Offshore Wind Power.....	26
2.3.5 Biomass .....	26
2.3.5.1 Solid Biomass .....	26
2.3.5.2 Biogas .....	28
2.3.6 Solar Energy .....	29
2.3.6.1 Solar PV .....	29
2.3.6.2 Concentrated Solar-thermal Power .....	30
2.3.7 Small Hydro.....	31
2.3.8 Geothermal .....	31
2.3.9 Marine (Wave/Tidal).....	32

2.4 Political Will Risk Index.....	33
2.4.1 Government Structure.....	33
2.4.2 Government Debt .....	34
2.4.3 Targets and Commitments .....	34
2.4.4 Public Sentiment.....	35
2.5 Grid Connection Risk Index .....	36
2.5.1 Functional Separation .....	36
2.5.2 Grid Capacity.....	38
2.5.3 Access and Connection Cost.....	39
2.6 Planning Permission Risk Index .....	40
2.6.1 Complexity and Expected Timescales .....	40
2.6.2 Local Opposition and Procedural Improvements.....	41
2.7 Conclusion.....	42
<b>Chapter 3: China.....</b>	<b>43</b>
Executive Summary.....	43
Opportunities Indices .....	43
Risk Indices.....	43
3.1 Incentive Opportunities Index .....	44
3.1.1 Operating Incentives.....	44
3.1.2 Investment Support.....	46
3.1.2.1 Solar Power Incentives.....	46
3.1.2.2 Tax Incentives .....	46
3.2 Power Market Opportunities Index.....	47
3.2.1 Energy Consumption .....	47
3.2.2 Electricity Sector .....	48
3.2.3 Nuclear Power .....	49
3.3 Technology Opportunities Index.....	49
3.3.1 Renewable Electricity Generation .....	49
3.3.2 Resource Potential .....	50
3.3.3 Levelised Generation Costs .....	51
3.3.4 Wind Power .....	52
3.3.4.1 Onshore Wind Power .....	52
3.3.4.2 Offshore Wind Power.....	54
3.3.5 Biomass .....	54
3.3.5.1 Solid Biomass .....	54
3.3.5.2 Biogas .....	55
3.3.6 Solar Energy .....	56
3.3.6.1 Solar PV.....	56
3.3.6.2 Concentrated Solar-thermal Power .....	58
3.3.7 Small Hydro.....	58
3.3.8 Geothermal .....	58
3.3.9 Marine (Wave/Tidal).....	59
3.4 Political Will Risk Index.....	59
3.4.1 Government Structure.....	59
3.4.2 Government Debt .....	60
3.4.3 Targets and Commitments .....	60
3.4.4 Public Sentiment.....	61
3.5 Grid Connection Risk Index .....	61
3.5.1 Functional Separation .....	61
3.5.2 Grid Capacity.....	62
3.5.3 Access and Connection Cost.....	62
3.6 Planning Permission Risk Index .....	63
3.6.1 Complexity and Expected Timescales .....	63
3.6.2 Local Opposition and Procedural Improvements.....	64
3.7 Conclusion.....	64

<b>Chapter 4: India</b> .....	<b>65</b>
Executive Summary.....	65
Opportunities Indices.....	65
Risk Indices.....	65
4.1 Incentive Opportunities Index.....	66
4.1.1 Operating Incentives.....	66
4.1.1.1 Federal Feed-in Tariffs.....	66
4.1.1.2 State Operating Incentives.....	68
4.1.1.2.1 Wind Power.....	68
4.1.1.2.2 Solar PV.....	69
4.1.1.2.3 Solid Biomass.....	70
4.1.2 Investment Support.....	70
4.1.2.1 Wind Power.....	70
4.1.2.2 Solar.....	71
4.1.2.3 Biomass.....	71
4.1.2.4 Grants.....	71
4.2 Power Market Opportunities Index.....	73
4.2.1 Energy Consumption.....	73
4.2.2 Electricity Sector.....	74
4.2.3 Nuclear Power.....	77
4.3 Technology Opportunities Index.....	77
4.3.1 Renewable Electricity Generation.....	77
4.3.2 Resource Potential.....	77
4.3.3 Levelised Generation Costs.....	79
4.3.4 Wind Power.....	80
4.3.4.1 Onshore Wind Power.....	80
4.3.4.2 Offshore Wind Power.....	81
4.3.5 Biomass.....	81
4.3.5.1 Solid Biomass.....	81
4.3.5.2 Biogas.....	83
4.3.6 Solar Energy.....	83
4.3.6.1 Solar PV.....	83
4.3.6.2 Concentrated Solar-thermal Power.....	83
4.3.7 Small Hydro.....	84
4.3.8 Geothermal.....	84
4.3.9 Marine (Wave/Tidal).....	84
4.4 Political Will Risk Index.....	85
4.4.1 Government Structure.....	85
4.4.2 Government Debt.....	86
4.4.3 Targets and Commitments.....	86
4.4.4 Public Sentiment.....	86
4.5 Grid Connection Risk Index.....	87
4.5.1 Functional Separation.....	87
4.5.2 Grid Capacity.....	88
4.5.3 Access and Connection Cost.....	88
4.6 Planning Permission Risk Index.....	89
4.6.1 Complexity and Expected Timescales.....	89
4.6.2 Local Opposition and Procedural Improvements.....	89
4.7 Conclusion.....	90
<b>Chapter 5: Indonesia</b> .....	<b>91</b>
Executive Summary.....	91
Opportunities Indices.....	91
Risk Indices.....	91
5.1 Incentive Opportunities Index.....	92
5.1.1 Operating Incentives.....	92
5.1.2 Investment Support.....	93
5.2 Power Market Opportunities Index.....	94
5.2.1 Energy Consumption.....	94
5.2.2 Electricity Sector.....	95

5.2.3 Nuclear Power .....	98
5.3 Technology Opportunities Index.....	98
5.3.1 Renewable Electricity Generation .....	98
5.3.2 Resource Potential .....	99
5.3.3 Levelised Generation Costs .....	99
5.3.4 Wind Power .....	100
5.3.4.1 Onshore Wind Power .....	100
5.3.4.2 Offshore Wind Power.....	100
5.3.5 Biomass .....	100
5.3.5.1 Solid Biomass .....	100
5.3.5.2 Biogas .....	101
5.3.6 Solar Energy .....	102
5.3.6.1 Solar PV .....	102
5.3.6.2 Concentrated Solar-thermal Power .....	102
5.3.7 Small Hydro.....	102
5.3.8 Geothermal .....	103
5.3.9 Marine (Wave/Tidal).....	105
5.4 Political Will Risk Index.....	106
5.4.1 Government Structure.....	106
5.4.2 Government Debt .....	106
5.4.3 Targets and Commitments .....	107
5.4.4 Public Sentiment.....	107
5.5 Grid Connection Risk Index .....	108
5.5.1 Functional Separation .....	108
5.5.2 Grid Capacity.....	108
5.5.3 Access and Connection Cost.....	109
5.6 Planning Permission Risk Index .....	109
5.6.1 Complexity and Expected Timescales .....	110
5.6.2 Local Opposition and Procedural Improvements.....	110
5.7 Conclusion.....	110

## **Chapter 6: Japan..... 112**

Executive Summary.....	112
Opportunities Indices .....	112
Risk Indices.....	112
6.1 Incentive Opportunities Index .....	113
6.1.1 Operating Incentives .....	113
6.1.1.1 Tradable Green Certificates .....	113
6.1.1.2 Solar PV Feed-in Tariff.....	114
6.1.2 Investment Support.....	115
6.2 Power Market Opportunities Index.....	117
6.2.1 Energy Consumption .....	117
6.2.2 Electricity Sector .....	118
6.2.3 Nuclear Power .....	120
6.3 Technology Opportunities Index.....	121
6.3.1 Renewable Electricity Generation .....	121
6.3.2 Resource Potential .....	121
6.3.3 Levelised Generation Costs .....	123
6.3.4 Wind Power .....	123
6.3.4.1 Onshore Wind Power .....	123
6.3.4.2 Offshore Wind Power.....	126
6.3.5 Biomass .....	126
6.3.5.1 Solid Biomass .....	126
6.3.5.2 Biogas .....	127
6.3.6 Solar Energy .....	127
6.3.6.1 Solar PV .....	127
6.3.6.2 Concentrated Solar-thermal Power .....	128
6.3.7 Small Hydro.....	128
6.3.8 Geothermal .....	128
6.3.9 Marine (Wave/Tidal).....	129

6.4 Political Will Risk Index.....	130
6.4.1 Government Structure.....	130
6.4.2 Government Debt.....	130
6.4.3 Targets and Commitments.....	130
6.4.4 Public Sentiment.....	131
6.5 Grid Connection Risk Index.....	132
6.5.1 Functional Separation.....	133
6.5.2 Grid Capacity.....	133
6.5.3 Access and Connection Cost.....	134
6.6 Planning Permission Risk Index.....	134
6.6.1 Complexity and Expected Timescales.....	135
6.6.2 Local Opposition and Procedural Improvements.....	135
6.7 Conclusion.....	135
<b>Chapter 7: South Korea (Republic of Korea).....</b>	<b>136</b>
Executive Summary.....	136
Opportunities Indices.....	136
Risk Indices.....	136
7.1 Incentive Opportunities Index.....	137
7.1.1 Operating Incentives.....	137
7.1.2 Investment Support.....	139
7.2 Power Market Opportunities Index.....	140
7.2.1 Energy Consumption.....	140
7.2.2 Electricity Sector.....	141
7.2.3 Nuclear Power.....	142
7.3 Technology Opportunities Index.....	143
7.3.1 Renewable Electricity Generation.....	143
7.3.2 Resource Potential.....	144
7.3.3 Levelised Generation Costs.....	145
7.3.4 Wind Power.....	145
7.3.4.1 Onshore Wind Power.....	145
7.3.4.2 Offshore Wind Power.....	146
7.3.5 Biomass.....	146
7.3.5.1 Solid Biomass.....	146
7.3.5.2 Biogas.....	146
7.3.6 Solar Energy.....	147
7.3.6.1 Solar PV.....	147
7.3.6.2 Concentrated Solar-thermal Power.....	148
7.3.7 Small Hydro.....	148
7.3.8 Geothermal.....	148
7.3.9 Marine (Wave/Tidal).....	149
7.4 Political Will Risk Index.....	149
7.4.1 Government Structure.....	149
7.4.2 Government Debt.....	150
7.4.3 Targets and Commitments.....	150
7.4.4 Public Sentiment.....	151
7.5 Grid Connection Risk Index.....	151
7.5.1 Functional Separation.....	151
7.5.2 Grid Capacity.....	152
7.5.3 Access and Connection Cost.....	152
7.6 Planning Permission Risk Index.....	153
7.6.1 Complexity and Expected Timescales.....	153
7.6.2 Local Opposition and Procedural Improvements.....	153
7.7 Conclusion.....	154
<b>Chapter 8: Malaysia.....</b>	<b>155</b>
Executive Summary.....	155
Opportunities Indices.....	155
Risk Indices.....	155
8.1 Incentive Opportunities Index.....	156

8.1.1	Operating Incentives .....	156
8.1.1.1	Small Renewable Energy Programme .....	156
8.1.1.2	Proposed Feed-in Tariff.....	157
8.1.2	Investment Support .....	159
8.2	Power Market Opportunities Index .....	160
8.2.1	Energy Consumption .....	160
8.2.2	Electricity Sector .....	161
8.2.3	Nuclear Power .....	164
8.3	Technology Opportunities Index.....	164
8.3.1	Renewable Electricity Generation .....	164
8.3.2	Resource Potential .....	165
8.3.3	Levelised Generation Costs .....	166
8.3.4	Wind Power .....	167
8.3.4.1	Onshore Wind Power .....	167
8.3.4.2	Offshore Wind Power.....	167
8.3.5	Biomass .....	167
8.3.5.1	Solid Biomass .....	167
8.3.5.2	Biogas .....	168
8.3.6	Solar Energy .....	169
8.3.6.1	Solar PV.....	169
8.3.6.2	Concentrated Solar-thermal Power .....	169
8.3.7	Small Hydro.....	170
8.3.8	Geothermal .....	170
8.3.9	Marine (Wave/Tidal).....	170
8.4	Political Will Risk Index.....	171
8.4.1	Government Structure.....	171
8.4.2	Government Debt .....	171
8.4.3	Targets and Commitments .....	172
8.4.4	Public Sentiment.....	172
8.5	Grid Connection Risk Index .....	173
8.5.1	Functional Separation .....	173
8.5.2	Grid Capacity.....	173
8.5.3	Access and Connection Cost.....	174
8.6	Planning Permission Risk Index .....	175
8.6.1	Complexity and Expected Timescales .....	175
8.6.2	Local Opposition and Procedural Improvements.....	175
8.7	Conclusion.....	176
<b>Chapter 9: The Philippines .....</b>		<b>177</b>
	Executive Summary.....	177
	Opportunities Indices .....	177
	Risk Indices.....	177
9.1	Incentive Opportunities Index .....	178
9.1.1	Operating Incentives .....	178
9.1.1.1	Proposed Feed-in Tariff.....	178
9.1.1.2	Renewable Portfolio Standard.....	179
9.1.2	Investment Support .....	179
9.2	Power Market Opportunities Index .....	180
9.2.1	Energy Consumption .....	180
9.2.2	Electricity Sector .....	181
9.2.3	Nuclear Power .....	185
9.3	Technology Opportunities Index.....	185
9.3.1	Renewable Electricity Generation .....	186
9.3.2	Resource Potential .....	186
9.3.3	Levelised Generation Costs .....	188
9.3.4	Wind Power .....	188
9.3.4.1	Onshore Wind Power .....	188
9.3.4.2	Offshore Wind Power.....	188
9.3.5	Biomass .....	188
9.3.5.1	Solid Biomass .....	188

9.3.5.2 Biogas .....	189
9.3.6 Solar Energy .....	189
9.3.6.1 Solar PV .....	189
9.3.6.2 Concentrated Solar-thermal Power .....	189
9.3.7 Small Hydro .....	189
9.3.8 Geothermal .....	190
9.3.9 Marine (Wave/Tidal).....	190
9.4 Political Will Risk Index.....	191
9.4.1 Government Structure.....	191
9.4.2 Government Debt .....	192
9.4.3 Targets and Commitments .....	192
9.4.4 Public Sentiment.....	192
9.5 Grid Connection Risk Index .....	193
9.5.1 Functional Separation .....	193
9.5.2 Grid Capacity.....	194
9.5.3 Access and Connection Cost.....	194
9.6 Planning Permission Risk Index .....	194
9.6.1 Complexity and Expected Timescales .....	194
9.6.2 Local Opposition and Procedural Improvements.....	195
9.7 Conclusion.....	195
<b>Chapter 10: Taiwan.....</b>	<b>196</b>
Executive Summary.....	196
Opportunities Indices .....	196
Risk Indices.....	196
10.1 Incentive Opportunities Index .....	197
10.1.1 Operating Incentives .....	197
10.1.2 Investment Support.....	198

## List of Tables

### Chapter 2: Australia

Table 2.1:	The yearly Renewable Electricity Target in Australia .....	11
Table 2.2:	The multiplier rates for RECs received by micro-generation systems between 2009 and 2015.....	12
Table 2.3:	Estimated generation compensation of renewable power in Australia in 2010 .....	12
Table 2.4:	Estimated generation compensation of small-scale renewable power in Australia from 1 January 2011.....	14
Table 2.5:	Estimated generation compensation of large-scale renewable power in Australia from 1 January 2011.....	14
Table 2.6:	Total installed capacity of renewable electricity generation in Australia from 2004 to 2009 (MW).....	22
Table 2.7:	Comparison of generation compensation in Australia in 2008/09 with levelised generation costs in the OECD .....	24
Table 2.8:	Growth in installed capacity of wind power in Australia from 2000 to 2009.....	25
Table 2.9:	Wind power projects under construction in Australia as of April 2010.....	25
Table 2.10:	Generating capacity of solid biomass power plants in Australia at the end of 2009 by state and territory.....	27
Table 2.11:	Electricity generation potential for solid biomass in Australia.....	27
Table 2.12:	Electricity generation potential for biogas in Australia .....	28
Table 2.13:	Cumulative installed power of solar PV in Australia from 2000 to 2009 (MW).....	29
Table 2.14:	Major geothermal power projects in Australia as of the end of 2009.....	32

Table 2.15:	Marine power demonstration projects in Australia.....	32
Table 2.16:	Commercial marine power projects in Australia as of April 2010 .....	33
Table 2.17:	Australian government commitments.....	35
Table 2.18:	Transmission system operators in Australia .....	37
Table 2.19:	Major interconnectors linking the NEM transmission networks .....	37
Table 2.20:	Distribution system operators in Australia .....	38

### Chapter 3: China

Table 3.1:	Comparison of tariff rates/income for renewable electricity by technology .....	45
Table 3.2:	Growth in electricity consumption from 2001 to 2009 in China .....	48
Table 3.3:	Changes in total installed capacity of renewable power in China from 2000 to 2009 (MW).....	50
Table 3.4:	The Chinese government targets for renewable power for 2010 and 2020 (GW) .....	50
Table 3.5:	Distribution of solar resources in China .....	51
Table 3.6:	Potential available biomass resources in China (Mtoe).....	51
Table 3.7:	Comparison of the operating incentives for renewable power in China in 2010 and levelised generation costs .....	52
Table 3.8:	The Chinese government's 'Three Gorges in the Air' wind power project by province .....	53
Table 3.9:	Accumulated installed generating capacity of biomass power (MW) .....	54
Table 3.10:	Development of landfill gas and biogas generating capacity in China from 2005 to 2008 (MW) .....	55
Table 3.11:	Government targets for large-scale biogas power plants for 2010 and 2020.....	56
Table 3.12:	Changes in installed solar PV power capacity in China from 1995 to 2008 (MW).....	56
Table 3.13:	Solar PV power development targets in China for 2010 and 2020 (cumulative installed capacity in MW) .....	57
Table 3.14:	Changes in small hydropower capacity and output in China from 2001 to 2008 .....	58
Table 3.15:	Chinese government commitments .....	60
Table 3.16:	Transmission grid zones in China .....	62

### Chapter 4: India

Table 4.1:	The CERC tariff guidelines for states .....	67
Table 4.2:	Federal incentives for wind and solar power generation in India.....	67
Table 4.3:	Renewable electricity quotas in selected states in India.....	68
Table 4.4:	Feed-in tariff rates for wind power in selected states in India .....	69
Table 4.5:	Feed-in tariff systems in selected states in India for biomass power generation .....	70
Table 4.6:	Central government financial assistance provided in India for solar PV .....	72
Table 4.7:	Projected peak demand and capacity deficit in India in 2010/11 .....	75
Table 4.8:	Projections for power consumption and peak demand in India to 2022.....	75
Table 4.9:	Installed generating capacity of renewable power in India from 2008 to 2010 (MW).....	77
Table 4.10:	Renewable power development potential in the states in India (MW).....	79
Table 4.11:	Comparison of feed-in tariff rates in India with levelised generation costs in the OECD (EUR/MWh).....	80
Table 4.12:	Total installed capacity of onshore wind in India between 2000 and 2009 .....	80
Table 4.13:	Wind power potential and installed capacity in India at the end of 2009 .....	81
Table 4.14:	Proposed concentrated solar-thermal projects in India.....	84
Table 4.15:	Indian government commitments .....	86

### Chapter 5: Indonesia

Table 5.1:	Minimum compensation rates for renewable power sold to PLN in 2010 .....	93
Table 5.2:	Projected peak demand and available capacity in Indonesia in 2010 and 2014 .....	96
Table 5.3:	New generating capacity planned in Indonesia between 2009 and 2013 .....	97
Table 5.4:	Total generation of grid-connected renewable power in Indonesia from 2003 to 2008 (GWh) .....	98
Table 5.5:	Total installed generating capacity of grid-connected renewable power in Indonesia from 2003-2009 (MW).....	99
Table 5.6:	Renewable energy potential in Indonesia .....	99
Table 5.7:	Distribution and energy potential of biomass in Indonesia .....	101
Table 5.8:	Biomass generating potential integrated with agricultural processing plants in Indonesia .....	101
Table 5.9:	Planned small hydro projects in Indonesia from 2010 to 2014 .....	102
Table 5.10:	Geothermal power plants in Indonesia in 2010 .....	103
Table 5.11:	Electricity and steam purchase prices for geothermal plants in Indonesia .....	104

Table 5.12:	Geothermal power projects under development in Indonesia .....	105
Table 5.13:	Indonesian government commitments.....	107
Table 5.14:	Length of installed power lines in Indonesia in 2008 (km) .....	109

## Chapter 6: Japan

Table 6.1:	Renewable electricity targets in Japan from 2010 to 2014.....	114
Table 6.2:	Feed-in tariff rates for solar PV in Japan installed in 2010 .....	115
Table 6.3:	Investment subsidies previously available for hydropower in Japan in 2007 and 2008 .....	116
Table 6.4:	Examples of central and local government subsidies in Japan for solar PV .....	117
Table 6.5:	Growth in the total installed capacity of renewable power in Japan from 1990 to 2008 (MW).....	121
Table 6.6:	Average yearly wind speeds in Japan in various regions.....	122
Table 6.7:	Breakdown of biomass produced and used in Japan in 2005 .....	122
Table 6.8:	Sites with development potential for small hydro in Japan .....	123
Table 6.9:	Comparison of feed-in tariff rates in Japan for solar PV with levelised generation costs in the OECD (EUR/MWh) .....	123
Table 6.10:	Wind farms (>10,000 kW) in Japan as of March 2009 .....	125
Table 6.11:	Cumulative installed PV power in Japan from 2005 to 2009 (MW) .....	128
Table 6.12:	Geothermal plants in Japan as of 2010.....	129
Table 6.13:	Japanese government commitments .....	131

## Chapter 7: South Korea (Republic of Korea)

Table 7.1:	Feed-in tariff rates for non-solar PV renewable power in South Korea in 2010 .....	138
Table 7.2:	Feed-in tariff rates for solar PV generated electricity in South Korea from 2008 to 2010 (KRW/MWh).....	138
Table 7.3:	Feed-in tariff rates for solar PV generated electricity in South Korea from 2008 to 2010 (EUR/MWh).....	138
Table 7.4:	Projected peak demand and installed generating capacity in South Korea from 2009 to 2022.....	142
Table 7.5:	Total installed generating capacity of renewable power in South Korea in 2008 and 2009 (MW).....	143
Table 7.6:	Renewable power generation in South Korea from 2004 to 2008 (MWh).....	143
Table 7.7:	Biomass resources in South Korea.....	144
Table 7.8:	Comparison of feed-in tariff rates in South Korea with levelised generation costs in the OECD (EUR/MWh) .....	145
Table 7.9:	Total installed capacity of onshore wind in South Korea between 2001 and 2009 .....	145
Table 7.10:	Status of offshore wind power projects in South Korea .....	146
Table 7.11:	Total installed capacity of solar PV in South Korea from 2001 to 2009 (kW).....	147
Table 7.12:	Status of marine power projects in South Korea .....	149
Table 7.13:	South Korean government commitments .....	150
Table 7.14:	Estimated duration for completion for grid connection request .....	152

## Chapter 8: Malaysia

Table 8.1:	Proposed feed-in tariff rates in Malaysia for 2010 .....	158
Table 8.2:	Annual quota of new renewable power capacity that can receive the feed-in tariff rates (MW) .....	159
Table 8.3:	Power consumption and exports in Malaysia from 2003 to 2008 (GWh) .....	162
Table 8.4:	Growth in peak demand and installed capacity in Malaysia in each grid region.....	163
Table 8.5:	Expected change in the electricity generation mix in Malaysia from 2000 to 2010 (GWh) .....	164
Table 8.6:	Growth in installed generating capacity of renewable power in Malaysia from 2001 to 2008 (MW).....	164
Table 8.7:	Proposed cumulative quota on renewable power capacity in Malaysia under the FIT system (MW).....	166
Table 8.8:	Comparison of SREP and proposed feed-in tariff rates in Malaysia with levelised generation costs in the OECD (EUR/MWh) .....	166
Table 8.9:	Palm oil production by-products and generating potential in Malaysia in 2006 .....	167
Table 8.10:	Malaysian government commitments.....	172

**Chapter 9: The Philippines**

Table 9.1:	Peak annual demand in the regional grid systems in the Philippines from 2000 to 2008 .....	182
Table 9.2:	Committed new capacity additions in the Philippines between 2010 and 2014 (MW) .....	184
Table 9.3:	Planned new capacity additions in the Philippines between 2010 and 2020 .....	184
Table 9.4:	Power supply and demand outlook in the Philippines from 2009 to 2030 .....	185
Table 9.5:	Renewable power generation in the Philippines from 2005 to 2009 (MWh) .....	186
Table 9.6:	Installed generating capacity of renewable power in the Philippines in 2009 and targets to 2030 .....	186
Table 9.7:	Geothermal fields in the Philippines under development as of May 2010 .....	190
Table 9.8:	Areas suitable for the development of marine energy in the Philippines .....	191
Table 9.9:	Philippine government commitments .....	192

**Chapter 10: Taiwan**

Table 10.1:	Feed-in tariff rates in Taiwan in 2010.....	197
Table 10.2:	Solar PV feed-in tariff rates in Taiwan for projects which have been awarded an investment grant.....	198
Table 10.3:	Generating capacity projected to be built between 2008 and 2017 .....	202
Table 10.4:	Growth in the installed capacity of renewable power in Taiwan from 2003 to 2009 (MW) .....	203
Table 10.5:	Taiwan's renewable energy targets .....	204
Table 10.6:	Comparison of the FIT rates in Taiwan in 2010 and levelised generation costs in the OECD .....	204
Table 10.7:	Wind power development in Taiwan as of April 2010 .....	205
Table 10.8:	Marine energy development policy of Taiwan .....	208
Table 10.9:	Taiwanese government commitments .....	209

**Chapter 11: Thailand**

Table 11.1:	Adders (supplementary payments) for renewable electricity in Thailand in 2010 .....	216
Table 11.2:	Government-set caps of accumulated total capacity in Thailand .....	216
Table 11.3:	Thai economic zones .....	217
Table 11.4:	Investment incentives available in different economic zones in Thailand .....	218
Table 11.5:	Installed generating capacity of renewable power in Thailand at the end of 2009 and government targets up to 2022 (MW) .....	223
Table 11.6:	Required private sector investment in renewable power to meet Thailand's renewable energy target (THB million) .....	223
Table 11.7:	Renewable power capacity targets in 2022 and potential in Thailand.....	224
Table 11.8:	Comparison of the generation compensation in Thailand for 2010 with levelised generation costs in the OECD .....	225
Table 11.9:	Solid biomass energy potential in Thailand (ktoe) .....	226
Table 11.10:	Biogas energy potential in Thailand (ktoe) .....	227
Table 11.11:	Thai government commitments .....	230

**Chapter 12: Vietnam**

Table 12.1:	Total installed generating capacity of renewable power in Vietnam in 2008 .....	240
Table 12.2:	Solar energy resources in Vietnam by region .....	240
Table 12.3:	Renewable power targets in Vietnam for 2025.....	241
Table 12.4:	Vietnamese government commitments.....	246

**Chapter 13: Country Comparisons**

Table 13.1:	Total incentive and power market opportunities indices .....	250
Table 13.2:	Total political will, grid connection and planning permission risk indices .....	253

## List of Figures

### Chapter 2: Australia

Figure 2.1:	Primary energy consumption in Australia in 2007/08 (Mtoe): Total 137.9 Mtoe.....	19
Figure 2.2:	Total installed generating capacity in Australia in 2008/09 (MW): Total 50,454 MW .....	20
Figure 2.3:	Electricity generation mix in Australia in 2007/08 (TWh): Total 265.2TWh.....	21
Figure 2.4:	Projected electricity generation mix in Australia in 2029/30 (TWh): Total 366 TWh .....	21

### Chapter 3: China

Figure 3.1:	Primary energy consumption by source in China in 2008 (Mtoe): Total 1,933.5 Mtoe .....	47
Figure 3.2:	Projected generating capacity mix in China at the end of 2010 (GW) .....	49

### Chapter 4: India

Figure 4.1:	Primary energy consumption in India in 2007 (Mtoe): Total 594 Mtoe .....	73
Figure 4.2:	Total installed generating capacity in India in 2010 (MW): Total 160,694 MW .....	76
Figure 4.3:	Electricity generation mix in India in 2008 (TWh): Total 774.38 TWh .....	76

### Chapter 5: Indonesia

Figure 5.1:	Primary energy consumption in Indonesia in 2008 (Mtoe): Total 202.5 Mtoe.....	95
Figure 5.2:	Total installed generating capacity in Indonesia in 2008 (MW): Total 30,298 MW .....	96
Figure 5.3:	Electricity generation mix in Indonesia in 2008 (GWh): Total 149,437 GWh.....	97

### Chapter 6: Japan

Figure 6.1:	Primary energy consumption in Japan in 2008 (Mtoe): Total 514.4 Mtoe .....	118
Figure 6.2:	Total installed generating capacity in Japan in 2010 (MW): Total 237,151 MW .....	120
Figure 6.3:	Electricity generation mix in Japan in 2009-2010 (GWh): Total 925,392 GWh .....	120
Figure 6.4:	Increase in wind power in Japan between 2000 and 2008 and the government target for 2020 .....	124

### Chapter 7: South Korea (Republic of Korea)

Figure 7.1:	Primary energy consumption by source in South Korea in 2008 (Mtoe): Total 240.8 Mtoe ....	140
Figure 7.2:	Total installed generating capacity in South Korea in 2008 (MW): Total 72,491 MW .....	141
Figure 7.3:	Electricity generation mix in South Korea in 2008 (GWh): Total 422,355.4 GWh .....	142

### Chapter 8: Malaysia

Figure 8.1:	Primary energy consumption by source in Malaysia in 2008 (ktoe): Total 77,389 ktoe .....	161
Figure 8.2:	Total installed generating capacity in Malaysia in 2009 (MW): Total 24,608 MW .....	162
Figure 8.3:	Electricity generation mix in Malaysia in 2008 (GWh): Total 108,188 GWh.....	163

### Chapter 9: The Philippines

Figure 9.1:	Primary energy consumption by source in the Philippines in 2008 (ktoe): Total 39,503 ktoe.....	181
Figure 9.2:	Total installed generating capacity in the Philippines in 2009 (MW): Total 15,610 MW .....	183
Figure 9.3:	Electricity generation mix in the Philippines in 2009 (GWh): Total 61,933 GWh.....	183

### Chapter 10: Taiwan

Figure 10.1:	Primary energy consumption by source in Taiwan in 2009 (Mtoe): Total 133.7 Mtoe .....	200
Figure 10.2:	Projected growth in peak demand in Taiwan from 2001 to 2020 (MW) .....	201
Figure 10.3:	Generating capacity mix in Taiwan as of 31 December 2009 (MW): Total 48,014.9 MW .....	201
Figure 10.4:	Electricity generation mix in Taiwan in 2009 (GWh): Total 229,067.6 GWh.....	202

### Chapter 11: Thailand

Figure 11.1:	Primary energy consumption by source in Thailand in 2009 (ktoe): Total 82,345 ktoe.....	219
Figure 11.2:	Growth in peak demand in Thailand from 2000 and projections to 2030 (MW) .....	221
Figure 11.3:	Grid-connected generating capacity mix in Thailand as of 31 December 2009 (MW): Total 30,607 MW .....	221
Figure 11.4:	Electricity generation mix in Thailand in 2009 (GWh): Total 148,364 GWh .....	222

**Chapter 12: Vietnam**

Figure 12.1: Primary energy supply in Vietnam in 2007 (Mtoe): Total 46.9 Mtoe ..... 237  
Figure 12.2: Total installed generating capacity in Vietnam in 2009 (MW): Total 17,000 MW ..... 238

**Chapter 13: Country Comparisons**

Figure 13.1: Incentive and power market opportunities indices ..... 251  
Figure 13.2: Combined incentive and power market opportunities indices ..... 251  
Figure 13.3: Political will, grid connection and planning permission risk indices ..... 253  
Figure 13.4: Combined political will, grid connection and planning permission risk indices ..... 254  
Figure 13.5: Comparison of combined opportunity and risk indices ..... 255
