Table of Contents	i
List of Tables.....	vi
List of Figures.....	x
List of Abbreviations.....	xiv
Introduction.....	1
Operating Support Incentives	1
Feed-in Tariffs.....	1
Fixed and Variable Premiums	2
Tradable Green Certificates	2
Tender Schemes	3
Investment Support Incentives	4
Chapter 1: Australia	5
1.1 Government Targets	5
1.2 Electricity Generation Mix	5
1.3 Operating Support Incentives	6
1.3.1 Tradable Green Certificates	6
1.3.1.1 The Small-Scale Renewable Energy Scheme (SRES)	6
1.3.1.2 The Large-Scale Renewable Energy Target (LRET)	8
1.3.2 Price of Green Certificates.....	9
1.3.3 State-level Incentive Schemes	10
1.3.3.1 Australian Capital Territory	10
1.3.3.2 New South Wales.....	11
1.3.3.3 Queensland	11
1.3.3.4 South Australia	11
1.3.3.5 Tasmania.....	12
1.3.3.6 Victoria	12
1.3.3.7 Western Australia.....	12
1.4 Investment Support Incentives	13
Chapter 2: Austria	14
2.1 Government Targets	14
2.2 Electricity Generation Mix	14
2.3 Operating Support Incentives	15
2.4 Investment Support Incentives	16
Chapter 3: Belgium.....	17
3.1 Government Targets	17
3.2 Electricity Generation Mix	18
3.3 Operating Support Incentives	18
3.3.1 Federal Certificates	19
3.3.2 Walloon Certificates.....	19
3.3.3 Flemish Certificates	21
3.4 Investment Support Incentives	22
3.4.1 Federal Investment Support Incentives.....	22
3.4.2 Walloon Investment Support Incentives	23
3.4.3 Flemish Investment Support Incentives	23
Chapter 4: Canada.....	24
4.1 Government Targets	24
4.2 Electricity Generation Mix	24

4.3 Operating Support Incentives	25
4.3.1 Federal Operating Support Incentives	26
4.3.2 British Columbia Operating Support Incentives	26
4.3.3 Ontario Operating Support Incentives	28
4.4 Investment Support Incentives	29
Chapter 5: Chile	30
5.1 Government Targets	30
5.2 Electricity Generation Mix	30
5.3 Operating Support Incentives	31
5.4 Investment Support Incentives	32
Chapter 6: Czech Republic	33
6.1 Government Targets	33
6.2 Electricity Generation Mix	33
6.3 Operating Support Incentives	34
6.4 Investment Support Incentives	37
Chapter 7: Denmark	38
7.1 Government Targets	38
7.2 Electricity Generation Mix	39
7.3 Operating Support Incentives	39
7.4 Investment Support Incentives	41
Chapter 8: Finland	43
8.1 Government Targets	43
8.2 Electricity Generation Mix	44
8.3 Operating Support Incentives	44
8.4 Investment Support Incentives	46
Chapter 9: France	47
9.1 Government Targets	47
9.2 Electricity Generation Mix	47
9.3 Operating Support Incentives	48
9.3.1 Feed-in Tariff (Other than Solar PV)	48
9.3.2 Feed-in Tariff for Solar PV	50
9.4 Investment Support Incentives	52
Chapter 10: Germany	53
10.1 Government Targets	53
10.2 Electricity Generation Mix	53
10.3 Operating Support Incentives	54
10.4 Investment Support Incentives	57
10.4.1 Grants	57
10.4.2 Preferential Loans	57
Chapter 11: Greece	58
11.1 Government Targets	58
11.2 Electricity Generation Mix	59
11.3 Operating Support Incentives	59
11.4 Investment Support Incentives	61
Chapter 12: Hungary	62
12.1 Government Targets	62
12.2 Electricity Generation Mix	62
12.3 Operating Support Incentive	63
12.4 Investment Support Incentives	65

Chapter 13: Iceland	66
13.1 Government Targets	66
13.2 Electricity Generation Mix	66
13.3 Operating and Investment Support Incentives	67
Chapter 14: Ireland	68
14.1 Government Targets	68
14.2 Electricity Generation Mix	69
14.3 Operating Support Incentives	69
14.4 Investment Support Incentives	70
Chapter 15: Italy	72
15.1 Government Targets	72
15.2 Electricity Generation Mix	72
15.3 Operating Support Incentives	73
15.3.1 Tradable Green Certificates	73
15.3.2 Microgeneration Feed-in Tariff	75
15.3.3 Solar Power Operating Incentives	75
15.4 Investment Support Incentives	78
Chapter 16: Japan.....	79
16.1 Government Targets	79
16.2 Electricity Generation Mix	80
16.3 Operating Support Incentives	81
16.3.1 Tradable Green Certificates	81
16.3.2 Solar PV Feed-in Tariff	82
16.4 Investment Support Incentives	82
Chapter 17: Republic of Korea (South Korea).....	84
17.1 Government Targets	84
17.2 Electricity Generation Mix	84
17.3 Operating Support Incentives	85
17.3.1 Feed-in Tariff	85
17.3.1 Tradable Green Certificates	87
17.4 Investment Support Incentives	88
Chapter 18: Luxembourg.....	89
18.1 Government Targets	89
18.2 Electricity Generation Mix	89
18.3 Operating Support Incentives	90
18.4 Investment Support Incentives	91
Chapter 19: Mexico.....	92
19.1 Government Targets	92
19.2 Electricity Generation Mix	92
19.3 Operating Support Incentives	93
19.4 Investment Support Incentives	94
Chapter 20: The Netherlands.....	95
20.1 Government Targets	95
20.2 Electricity Generation Mix	95
20.3 Operating Support Incentives	96
20.4 Investment Support Incentives	97

Chapter 21: New Zealand	99
21.1 Government Targets	99
21.2 Electricity Generation Mix	99
21.3 Operating Support Incentives	100
21.4 Investment Support Incentives	100
Chapter 22: Norway	101
22.1 Government Targets	101
22.2 Electricity Generation Mix	101
22.3 Operating Support Incentives	102
22.4 Investment Support Incentives	102
Chapter 23: Poland	103
23.1 Government Targets	103
23.2 Electricity Generation Mix	103
23.3 Operating Support Incentives	104
23.4 Investment Support Incentives	105
Chapter 24: Portugal	107
24.1 Government Targets	107
24.2 Electricity Generation Mix	108
24.3 Operating Support Incentives	109
24.4 Investment Support Incentives	110
Chapter 25: Slovak Republic (Slovakia).....	112
25.1 Government Targets	112
25.2 Electricity Generation Mix	112
25.3 Operating Support Incentives	113
25.4 Investment Support Incentives	115
Chapter 26: Spain	116
26.1 Government Targets	116
26.2 Electricity Generation Mix	116
26.3 Operating Support Incentives	118
26.3.1 Feed-in Tariff and Premiums	118
26.3.2 Feed-in Tariff for Solar PV	121
26.4 Investment Support Incentives	122
Chapter 27: Sweden.....	123
27.1 Government Targets	123
27.2 Electricity Generation Mix	123
27.3 Operating Support Incentives	124
27.4 Investment Support Incentives	126
Chapter 28: Switzerland.....	128
28.1 Government Targets	128
28.2 Electricity Generation Mix	128
28.3 Operating Support Incentives	129
28.4 Investment Support Incentives	131
Chapter 29: Turkey	132
29.1 Government Targets	132
29.2 Electricity Generation Mix	132
29.3 Operating Support Incentives	133
29.4 Investment Support Incentives	134

Chapter 30: United Kingdom	135
30.1 Government Targets	135
30.2 Electricity Generation Mix	136
30.3 Operating Support Incentives	137
30.3.1 Tradable Green Certificates	137
30.3.2 Microgeneration Feed-in Tariff	140
30.3.3 Climate Change Levy	142
30.3.4 Proposed Changes to the UK Incentive System	143
30.4 Investment Support Incentives	143
Chapter 31: United States of America	145
31.1 Government Targets	145
31.2 Electricity Generation Mix	146
31.3 Incentives	147
31.3.1 Federal Incentives	147
31.3.1.1 Operating Support Incentives	147
31.3.1.2 Investment Support Incentives	148
31.3.2 State-level Incentives	149
31.3.2.1 Examples of State-level Incentives	152
Chapter 32: China.....	162
32.1 Government Targets	162
32.2 Electricity Generation Mix	162
32.3 Operating Support Incentives	164
32.4 Investment Support Incentives	165
32.4.1 Solar Power Subsidies	165
32.4.2 Tax Incentives	166
Chapter 33: India.....	167
33.1 Government Targets	167
33.2 Electricity Generation Mix	167
33.3 Operating Support Incentives	168
33.3.1 Federal Feed-in Tariffs	168
33.3.2 Tradable Green Certificates	170
33.3.3 State Operating Support Incentives	170
33.4 Investment Support Incentives	174
33.4.1 General Tax and Investment Incentives	174
33.4.2 Wind Power Investment Incentives.....	175
33.4.3 Biomass Power Investment Incentives	175
33.4.4 Solar Power Investment Incentives	176
33.4.5 Small Hydro Investment Incentives	177
Chapter 34: Country Ranking.....	178
Glossary	183

List of Tables

Chapter 1: Australia

Table 1.1:	Australian government commitments.....	5
Table 1.2:	The multiplier rates for STCs received by eligible micro-generation systems between 2009 and 2014 in Australia.....	8
Table 1.3:	The yearly Large-Scale Renewable Electricity Target in Australia.....	8
Table 1.4:	Estimated generation compensation of small-scale renewable power in Australia under the SRES system in 2011.....	10
Table 1.5:	Estimated generation compensation of large-scale renewable power in Australia from 1 January 2011.....	10

Chapter 2: Austria

Table 2.1:	Austrian government commitments.....	14
Table 2.2:	The feed-in tariff in Austria for new installations starting operation in 2011 (EUR/MWh).....	16

Chapter 3: Belgium

Table 3.1:	Belgian federal and state commitments.....	17
Table 3.2:	Minimum purchase price for federal TGCs in Belgium.....	19
Table 3.3:	CV creation rates and remuneration in Wallonia in 2011.....	21
Table 3.4:	Renewable electricity quota in Flanders.....	22
Table 3.5:	Guaranteed minimum price for Flemish TGCs from 2010 (excluding solar PV).....	22
Table 3.6:	Guaranteed minimum price for Flemish solar power TGCs.....	22

Chapter 4: Canada

Table 4.1:	Canadian government commitments.....	24
Table 4.2:	Installed generating capacity of renewable power by province and territory in Canada in 2008 (MW).....	25
Table 4.3:	Generation compensation for renewable power under British Columbia's Standing Offer Program in 2011.....	27
Table 4.4:	Demand-determined adjustments to Standing Offer Program base rate prices in 2011.....	27
Table 4.5:	Feed-in tariff base rates for renewable power projects in Ontario in 2011.....	28
Table 4.6:	Domestic content requirements in Ontario to receive the FIT.....	28

Chapter 5: Chile

Table 5.1:	Chilean government commitments.....	30
Table 5.2:	Total installed generating capacity in Chile by transmission system in 2011 (MW).....	31

Chapter 6: Czech Republic

Table 6.1:	Czech Republic government commitments.....	33
Table 6.2:	Feed-in tariff rates and premiums for small hydro projects (< 10 MW) in the Czech Republic.....	35
Table 6.3:	Premiums for parallel combustion and co-firing with biomass projects in the Czech Republic in 2011.....	35
Table 6.4:	Feed-in tariff rates and premiums for dedicated biomass projects in the Czech Republic.....	35
Table 6.5:	Feed-in tariff rates and premiums for biogas projects in the Czech Republic in 2011.....	36
Table 6.6:	Feed-in tariff rates and premiums for wind power projects in the Czech Republic.....	36
Table 6.7:	Feed-in tariff rates and premiums for solar PV projects in the Czech Republic.....	36
Table 6.8:	Feed-in tariff rates and premiums for geothermal power projects in the Czech Republic in 2011.....	37

Chapter 7: Denmark

Table 7.1:	Danish government commitments.....	38
Table 7.2:	Denmark's incentive rates for renewable electricity generation in 2011.....	41

Chapter 8: Finland	
Table 8.1:	Finnish government commitments 43
Table 8.2:	Feed-in tariff rates in Finland in 2011 45
Table 8.3:	Finland's subsidies for renewable power generation outside the FIT system in 2011 45
Chapter 9: France	
Table 9.1:	French government commitments 47
Table 9.2:	Growth in grid-connected solar and wind capacity in France between 2006 and 2010 (MW) 48
Table 9.3:	Feed-in tariff rates for non-solar PV technologies in France in 2011 49
Table 9.4:	Feed-in tariff rates for small-scale solar PV systems commissioned in France in 2010 50
Table 9.5:	Feed-in tariff rates for solar PV systems commissioned in France in 2011 51
Table 9.6:	Solar PV FIT depression rates in France based on cumulative new installed capacity in a three-month period 51
Chapter 10: Germany	
Table 10.1:	German government commitments 53
Table 10.2:	Feed-in tariff rates for renewable power (excluding solar PV) in Germany in 2011 55
Table 10.3:	Annual depression rates for the FIT for installations commissioned in 2011 excluding solar PV in Germany 56
Table 10.4:	Solar PV feed-in tariff rates and depression rates in Germany in 2011 and 2012 57
Chapter 11: Greece	
Table 11.1:	Greek government commitments..... 58
Table 11.2:	Feed-in tariff rates in Greece for new installations in 2011 (EUR/MWh) 60
Table 11.3:	Feed-in tariff rates for solar PV from 2009 to 2014 (EUR/MWh) 61
Table 11.4:	Investment incentives offered by the Greek government 61
Chapter 12: Hungary	
Table 12.1:	Hungarian government commitments..... 62
Table 12.2:	Feed-in tariff rates for renewable power projects in Hungary in 2011 commissioned after 2008..... 64
Table 12.3:	Feed-in tariff rates for renewable power projects in Hungary in 2011 commissioned prior to 2008 65
Chapter 13: Iceland	
Table 13.1:	Icelandic government commitments..... 66
Chapter 14: Ireland	
Table 14.1:	Irish government commitments 68
Table 14.2:	Reference prices for renewable electricity generation in Ireland in 2011..... 70
Chapter 15: Italy	
Table 15.1:	Italian government commitments 72
Table 15.2:	Estimated total generation compensation for renewable electricity supported under the Italian TGC scheme in 2010 74
Table 15.3:	Obligatory purchase price by the market operator for renewable power (≤ 1 MW) in Italy in 2011..... 75
Table 15.4:	Feed-in tariff rates for renewable power microgeneration (1 kW - 1 MW) in Italy, effective from 1 January 2008 (EUR/MWh) 75
Table 15.5:	Budgetary cap and projected new capacity under the solar PV feed-in tariff in Italy from June 2011 to December 2016..... 76
Table 15.6:	Feed-in tariff rates for new solar PV installations in Italy from July 2011 to December 2012 (EUR/MWh)..... 76
Table 15.7:	Feed-in tariff rates for new solar PV installations in Italy from January to June 2013 (EUR/MWh) 76

Table 15.8:	Feed-in tariff rates for new concentrated solar PV installations in Italy from July 2011 to June 2013 (EUR/MWh).....	77
Table 15.9:	Degression rate for new solar PV installations in Italy from January 2013 to December 2016.....	77
Table 15.10:	Fixed premiums and estimated generation compensation for solar thermal power generation in Italy in 2011	78
Chapter 16: Japan		
Table 16.1:	Japanese government commitments	79
Table 16.2:	Renewable electricity targets in Japan from 2010 to 2014	81
Table 16.3:	Feed-in tariff rates for solar PV in Japan installed in 2011	82
Chapter 17: Republic of Korea (South Korea)		
Table 17.1:	The Republic of Korea government commitments	84
Table 17.2:	Feed-in tariff rates for non-solar PV renewable power in the Republic of Korea in 2011	86
Table 17.3:	Feed-in tariff rates for solar PV generated electricity in the Republic of Korea in 2011 (KRW/MWh).....	86
Table 17.4:	Feed-in tariff rates for solar PV generated electricity in the Republic of Korea in 2011 (EUR/MWh).....	86
Table 17.5:	Annual renewable power quota in the TGC system in the Republic of Korea	87
Table 17.6:	New solar PV capacity required under the TGC system in the Republic of Korea	87
Table 17.7:	Technology bands for TGCs in the Republic of Korea.....	87
Chapter 18: Luxembourg		
Table 18.1:	Luxembourg government commitments	89
Table 18.2:	Feed-in tariff rates in Luxembourg in 2011	90
Chapter 19: Mexico		
Table 19.1:	Mexican government commitments	92
Chapter 20: The Netherlands		
Table 20.1:	The Netherlands government commitments	95
Table 20.2:	Maximum 'basic amounts' and application openings under the SDE+ premium system in the Netherlands in 2011	97
Table 20.3:	Maximum 'basic amount' available in the SDE+ premium system for selected generating technologies in the Netherlands in 2011	97
Chapter 21: New Zealand		
Table 21.1:	New Zealand government commitments	99
Chapter 22: Norway		
Table 22.1:	Norwegian government commitments.....	101
Chapter 23: Poland		
Table 23.1:	Polish government commitments	103
Table 23.2:	The renewable electricity quota obligation in Poland from 2010 to 2017	104
Chapter 24: Portugal		
Table 24.1:	Portuguese government commitments.....	107
Table 24.2:	Average indicative FIT rates in Portugal 2008 to 2011 (EUR/MWh)	110
Table 24.3:	Feed-in tariff rates for those microgeneration installations of up to 3.68 kW that produce both heat and electricity in Portugal in 2011	110

Chapter 25: Slovak Republic (Slovakia)	
Table 25.1:	Slovak Republic government commitments 112
Table 25.2:	Feed-in tariff rates for renewable power generators ≤ 10 MW in 2011 in the Slovak Republic 114
Table 25.3:	Reduction in tariff levels based on EU or state funding in the Slovak Republic 115
Chapter 26: Spain	
Table 26.1:	Spanish government commitments 116
Table 26.2:	Feed-in tariff and premium rates for renewable power installations (excluding solar PV) commissioned in Spain in 2011 (EUR/MWh) 119
Table 26.3:	Annual full-load operating hours for which solar-thermal power plants receive operating incentives in Spain 121
Table 26.4:	Feed-in tariff rates for solar PV in Spain for installations commissioned from 2008 to 2011 122
Chapter 27: Sweden	
Table 27.1:	Swedish government commitments 123
Table 27.2:	Renewable electricity quota obligation in Sweden between 2010 and 2035 126
Table 27.3:	Tradable green certificate prices and generation compensation in Sweden from 2003 to 2010 126
Chapter 28: Switzerland	
Table 28.1:	Swiss government commitments 128
Table 28.2:	Feed-in tariffs in Switzerland in 2011 130
Chapter 29: Turkey	
Table 29.1:	Turkish government commitments 132
Table 29.2:	Feed-in tariff rates in Turkey in 2011 133
Table 29.3:	Bonus payments for domestically-produced equipment in Turkey 134
Chapter 30: United Kingdom	
Table 30.1:	UK government commitments 135
Table 30.2:	The technology banding of Renewable Obligation Certificates in Great Britain (England, Scotland and Wales) 138
Table 30.3:	Renewable electricity quota obligation in Great Britain (England, Scotland and Wales) and Northern Ireland 139
Table 30.4:	Generation compensation for renewable electricity under the RO system in Great Britain (England, Scotland and Wales) in 2010 140
Table 30.5:	Feed-in tariff generation rates for grid-connected generators commissioned from 2010 to 2012 in Great Britain (England, Scotland and Wales) 142
Chapter 31: United States of America	
Table 31.1:	US government commitments 145
Table 31.2:	Production tax credit for renewable power facilities in the US 147
Table 31.3:	State-level renewable energy targets (binding and voluntary) as of December 2010 149
Table 31.4:	Market Price Referent for renewable power purchase agreements in California from 2011 to 2021 153
Table 31.5:	Feed-in tariff rates in California for a renewable power facility up to 3 MW starting operation in 2011 with a 10-year contract 154
Table 31.6:	Solar power incentives in California (USD) 155
Table 31.7:	Solar power incentives in California (EUR) 155
Table 31.8:	Renewable power operating incentives in Kentucky and Tennessee 156
Table 31.9:	Feed-in tariff rates in Oregon for solar power up to and including 100 kW from April 2011 159
Table 31.10:	Renewable power quota in Texas until 2015 159
Table 31.11:	Operating incentives in Washington State for renewable power 160

Chapter 32: China

Table 32.1:	Chinese government commitments	162
Table 32.2:	Growth in electricity consumption from 2001 to 2010 in China	164
Table 32.3:	Comparison of tariff rates/income for renewable electricity by technology	165

Chapter 33: India

Table 33.1:	Indian government commitments	167
Table 33.2:	Federal guideline tariffs for renewable power generation in India	169
Table 33.3:	Federal incentives for wind and solar power generation in India	170
Table 33.4:	Maximum and minimum REC prices in India: 2011-2012.....	170
Table 33.5:	Renewable Purchase Obligation in Indian states as of June 2011	171
Table 33.6:	Feed-in tariff rates for wind power in selected states in India	172
Table 33.7:	Feed-in tariff systems in selected states in India for biomass power and CHP based on non-fossil fuel sources as of 31 March 2011	173
Table 33.8:	Central government financial assistance provided in India for solar PV	177
Table 33.9:	Investment incentives for small hydro projects in India	177

Chapter 34: Country Ranking

Table 34.1:	Comparison of generation compensation for solar PV and wind power in OECD countries, China and India in 2011 (EUR/MWh).....	180
-------------	---	-----

List of Figures**Chapter 1: Australia**

Figure 1.1:	Total installed generating capacity in Australia in 2010 (MW): 53,526 MW	5
Figure 1.2:	Electricity generation mix in Australia in 2009 (TWh): Total 265 TWh	6

Chapter 2: Austria

Figure 2.1:	Total installed generating capacity in Austria in 2009 (MW): 20,948 MW	14
Figure 2.2:	Electricity generation mix in Austria in 2009 (GWh): Total 68,974 GWh	15

Chapter 3: Belgium

Figure 3.1:	Total installed generating capacity in Belgium in 2008 (MW): 14,953.7 MW	18
Figure 3.2:	Electricity generation mix in Belgium in 2009 (TWh): Total: 88.8 TWh.....	18

Chapter 4: Canada

Figure 4.1:	Total installed generating capacity in Canada in 2008 (GW): 125.1 GW	24
Figure 4.2:	Electricity generation mix in Canada in 2008 (GWh): Total 672,425 GWh.....	25

Chapter 5: Chile

Figure 5.1:	Total installed generating capacity in Chile in 2011 (MW): 16,950 MW	30
Figure 5.2:	Electricity generation mix in Chile in 2010 (GWh): Total 58,257 GWh	31

Chapter 6: Czech Republic

Figure 6.1:	Total installed generating capacity in the Czech Republic in 2009 (MW): 18,325 MW	33
Figure 6.2:	Electricity generation mix in Czech Republic in 2009 (GWh): Total 82,250.0 GWh	34

Chapter 7: Denmark

Figure 7.1:	Total installed generating capacity in Denmark in 2009 (MW): 13,409 MW	39
Figure 7.2:	Electricity generation mix in Denmark in 2009 (GWh): Total: 36,363.03 GWh.....	39

Chapter 8: Finland

Figure 8.1:	Total installed generating capacity in Finland in 2009 (GW): 16.62 GW	44
Figure 8.2:	Electricity generation mix in Finland in 2010 (TWh): Total 77.0 GWh.....	44

Chapter 9: France	
Figure 9.1:	Total installed generating capacity in France in 2010 (GW): 123.5 GW 47
Figure 9.2:	Electricity generation mix in France in 2010 (TWh): Total: 550.3 TWh..... 48
Chapter 10: Germany	
Figure 10.1:	Total installed generating capacity in Germany in 2009 (MW): 152,941.12 MW 53
Figure 10.2:	Electricity generation mix in Germany in 2010 (TWh): Total: 620.85 TWh..... 54
Chapter 11: Greece	
Figure 11.1:	Total installed generating capacity of the interconnected Greek grid in December 2009 (MW): 12,491.9 MW 59
Figure 11.2:	Electricity generation mix in Greece in 2010 (GWh): Total 47,008.1 GWh 59
Chapter 12: Hungary	
Figure 12.1:	Total installed generating capacity in Hungary in December 2009 (MW): 8,575 MW 62
Figure 12.2:	Electricity generation mix in Hungary in 2009 (GWh): Total 35,907 GWh..... 63
Figure 12.3:	Renewable electricity generation in Hungary in 2010 (GWh): Total 2,843 GWh..... 63
Chapter 13: Iceland	
Figure 13.1:	Total installed generating capacity in Iceland in 2009 (MW): 2,579.3 MW 66
Figure 13.2:	Electricity generation mix in Iceland in 2009 (GWh): Total 16,835.3 GWh..... 67
Chapter 14: Ireland	
Figure 14.1:	Total installed generating capacity in Ireland in 2010 (MW): 8,462.1 MW 69
Figure 14.2:	Electricity generation mix in Ireland in 2009 (GWh): Total 28,050 GWh 69
Chapter 15: Italy	
Figure 15.1:	Total installed generating capacity in Italy in 2010 (MW): 106,938 MW 72
Figure 15.2:	Electricity generation mix in Italy in 2010 (GWh): Total 295,020 GWh 73
Chapter 16: Japan	
Figure 16.1:	Total installed generating capacity in Japan in December 2010 (MW): 228,264 MW 80
Figure 16.2:	Electricity generation mix in Japan in 2010 (GWh): Total 920,181 GWh 80
Chapter 17: Republic of Korea (South Korea)	
Figure 17.1:	Total installed generating capacity in the Republic of Korea in December 2009 (MW): 73,471 MW..... 84
Figure 17.2:	Electricity generation mix in the Republic of Korea in 2009 (GWh): Total 433,604 GWh 85
Chapter 18: Luxembourg	
Figure 18.1:	Total installed generating capacity in Luxembourg in 2009 (MW): 1,703.7 MW 89
Figure 18.2:	Electricity generation mix in Luxembourg in 2009 (GWh): Total 3,796 GWh 90
Chapter 19: Mexico	
Figure 19.1:	Total installed generating capacity in Mexico in 2009 (MW): 52,945 MW 92
Figure 19.2:	Electricity generation mix in Mexico in 2010 (GWh): Total 241,491 GWh 93
Chapter 20: The Netherlands	
Figure 20.1:	Total installed generating capacity in the Netherlands in 2009 (MW): 25,264 MW 95
Figure 20.2:	Electricity generation mix in the Netherlands in 2009 (GWh): Total 113,098.8 GWh..... 96

Chapter 21: New Zealand

Figure 21.1:	Total installed generating capacity in New Zealand in December 2009 (MW): 9,380 MW	99
Figure 21.2:	Electricity generation mix in New Zealand in 2010 (GWh): Total 43,402 GWh	100

Chapter 22: Norway

Figure 22.1:	Total installed generating capacity in Norway in 2009 (MW): 30,955 MW	101
Figure 22.2:	Electricity generation mix in Norway in 2009 (GWh): Total 131,773 GWh.....	102

Chapter 23: Poland

Figure 23.1:	Total installed generating capacity in Poland in 2010 (MW): 35,756 MW	103
Figure 23.2:	Electricity generation mix in Poland in 2010 (GWh): Total 156,644 GWh	104

Chapter 24: Portugal

Figure 24.1:	Total installed generating capacity in Portugal in 2010 (MW): 17,920 MW.....	108
Figure 24.2:	Electricity generation mix in Portugal in 2010 (GWh): Total 50,092 GWh.....	108

Chapter 25: Slovak Republic (Slovakia)

Figure 25.1:	Total installed generating capacity in the Slovak Republic in 2010 (MW): 7,780 MW	112
Figure 25.2:	Electricity generation mix in the Slovak Republic in 2010 (GWh): Total 27,720	113
Figure 25.3:	Total installed generating capacity of renewable electricity in the Slovak Republic in 2010 (MW): 1,074 MW	113

Chapter 26: Spain

Figure 26.1:	Total installed generating capacity in Spain in 2010 (MW): 97,447 MW	116
Figure 26.2:	Electricity generation mix in Spain in 2010 (GWh): Total 279,539 GWh	117
Figure 26.3:	Total installed capacity of renewable power in Spain in 2008 (MW): 39,040 MW	117
Figure 26.4:	Renewable electricity generation in Spain in 2009 (GWh): Total 73,465 GWh.....	118

Chapter 27: Sweden

Figure 27.1:	Total installed generating capacity in Sweden in 2010 (MW): 35,701 MW	123
Figure 27.2:	Electricity generation mix in Sweden in 2010 (TWh): Total 145.03 TWh	124
Figure 27.3:	Renewable electricity generation in Sweden in 2009 (GWh): Total 15,569.7 GWh	124

Chapter 28: Switzerland

Figure 28.1:	Total installed generating capacity in Switzerland in 2009 (MW): 17,579 MW	128
Figure 28.2:	Electricity generation mix in Switzerland in 2009 (GWh): Total 66,494 GWh	129

Chapter 29: Turkey

Figure 29.1:	Total installed generating capacity in Turkey in 2009 (MW): 44,761.2 MW	132
Figure 29.2:	Electricity generation mix in Turkey in 2009 (GWh): Total 194,812.9 GWh	133

Chapter 30: United Kingdom

Figure 30.1:	Total installed generating capacity in the UK in 2010-2011 (MW): 84,102.5 MW	136
Figure 30.2:	Electricity generation mix in the UK in 2010 (TWh): Total 381.25 TWh.....	136
Figure 30.3:	Total installed generating capacity of renewable power in the UK in 2010 (MW): 9,021 MW	137
Figure 30.4:	Renewable electricity generation in the UK in 2010 (GWh): Total 25,335 GWh	137

Chapter 31: United States of America

Figure 31.1:	Total installed generating capacity in the USA in 2009 (MW): 1,121,686 MW.....	146
Figure 31.2:	Electricity generation in the USA in 2010 (GWh): Total 4,124,120 GWh	146

Chapter 32: China

Figure 32.1:	Total installed generating capacity in China at the end of 2010 (GW): 962.19 GW	162
Figure 32.2:	Electricity generation mix in China in 2010 (TWh): Total 4,227.7 TWh	163
Figure 32.3:	Total installed generating capacity of renewable power in China in June 2010 (MW): 222,337 MW	163

Chapter 33: India

Figure 33.1:	Total installed generating capacity in India in December 2010 (MW): 171,616.8 MW	167
Figure 33.2:	Electricity generation mix in India in 2008 (TWh): Total 774.38 TWh	168

Chapter 34: Country Ranking

Figure 34.1:	Comparison of generation compensation for 499 kW building-attached solar PV in the OECD countries, China and India in 2010 and 2011 (EUR/MWh).....	181
Figure 34.2:	Comparison of generation compensation for 5.1 MW onshore wind power in the OECD countries, China and India in 2010 and 2011 (EUR/MWh)	182
