

**Sub-Saharan Africa Oil and Gas
and
Opportunities for Manufacturing Suppliers**

Background

Lack of reference that describes *in a comprehensive manner*

- ❑ **Sub-Saharan Africa oil & gas sector**
- ❑ **Activities of major international manufacturing suppliers serving for the sector, e.g., Siemens, GE.**

Data gathering in SSA is not easy. Accuracy of data is often questionable.

Objectives

- ❑ Provide a detailed description of the oil & gas sector of sub-Saharan Africa that covers *the whole value chain of the sector*
- ❑ Describe **the activities of, and opportunities for, international manufacturing suppliers** in the same value chain.

Describes the entire value chain of the sector—up-, mid-, and down-streams—as well as the involvement of international manufacturing suppliers.

Structure

1. Regional analysis

2. Country analyses

- Nigeria
- Angola
- Equatorial Guinea
- Ghana
- Mozambique
- Tanzania

3. **Country comparisons of opportunities and risks** for both international oil companies and manufacturing suppliers
