

Table of Contents

Table of Contents	i
List of Tables	ii
List of Figures	iii
List of Abbreviations	iv
Chapter 1: Introduction.....	1
Chapter 2: The Solar PV Sector Overview	3
2.1. Solar Power Technologies	4
2.1.1. Solar PV Power.....	4
2.1.1.1. <i>Solar PV Market</i>	5
2.1.1.2. <i>Solar PV Investment</i>	5
2.1.1.3. <i>Solar Merger and Acquisition Activity in 2008</i>	8
2.1.2. Concentrated Solar-thermal Power (CSP) Technology	9
2.2. Incentives for Solar PV Power Development in the EU	11
2.2.1. Feed-in Tariff (FIT)	11
2.2.2. Premium.....	12
2.2.3. Tradable Green Certificates (TGC).....	12
2.2.4. Solar PV Incentives in Europe.....	13
2.2.4.1. <i>Germany</i>	14
2.2.4.2. <i>France</i>	14
2.2.4.3. <i>Spain</i>	15
2.2.4.4. <i>Portugal</i>	15
2.2.4.5. <i>Italy</i>	16
2.2.4.6. <i>Czech Republic</i>	17
2.2.4.7. <i>Greece</i>	17
2.2.4.8. <i>Belgium</i>	18
Chapter 3: Solar PV Industry Analysis.....	21
3.1. Solar PV Value Chain Overview	21
3.1.1. Crystalline Silicon	21
3.1.1.1. <i>Global Silicon Output</i>	21
3.1.2. Ingots and Wafers.....	23
3.1.3. Solar Cells.....	24
3.1.3.1. <i>Global Solar Cell Output</i>	25
3.1.3.2. <i>Thin-Film Technology</i>	26
3.1.4. Solar Modules.....	27
3.1.5. Project Development, System Integration and Balance of System Production	27
3.2. Solar PV Value-Added Production Costs.....	28
3.3. Industry Goals.....	30
3.3.1. Consumer Grid Parity	30
3.3.1.1. <i>Solar Irradiation</i>	31
3.3.1.2. <i>Electricity Prices</i>	32
3.3.2. Progress towards Consumer Grid Parity	34
3.3.3. Commercial Solar Power Price Competitiveness.....	35
3.3.3.1. <i>Major Project Developers</i>	37
3.4. Power Conversion Efficiency	38
3.4.1. Research & Development Investment	38
3.4.2. Crystalline Silicon Conversion Efficiencies	40
3.4.3. Thin-Film Power Conversion Efficiencies.....	41
3.4.4. Advanced Thin-Film Power Conversion Efficiencies.....	41
3.4.5. Solar Trackers	41
3.4.6. Balance of System Efficiency	42

3.5. Total Cost Reduction	42
3.5.1. Vertical Integration	43
3.5.1.1. <i>Benefits of Vertical Integration in the Solar PV Sector</i>	44
3.5.1.2. <i>Risks of Vertical Integration in the Solar PV Sector</i>	45
3.5.2. Analysis of Strategic Approaches to Vertical Integration	46
3.5.2.1. <i>Methodology</i>	46
3.5.2.2. <i>Results</i>	47
3.5.2.2.1. <i>Strategic Approach 1 – Specialists</i>	48
3.5.2.2.2. <i>Specialist Company Profiles</i>	50
3.5.2.2.3. <i>Strategic Approach 2 – Specialist Integration</i>	59
3.5.2.2.4. <i>Specialist-Integrated Company Profiles</i>	61
3.5.2.2.5. <i>Strategic Approach 3 – Partial Integration</i>	66
3.5.2.2.6. <i>Top 12 Partially-Integrated Company Profiles</i>	66
3.5.2.2.7. <i>Strategic Approach 4 – Full Value Chain Integration</i>	73
3.5.2.2.8. <i>Fully-Integrated Company Profiles</i>	74
3.5.3 The Effects of the Financial Crisis, Global Recession and Plunge in Commodity Prices	81
Chapter 4: Conclusion	83
Appendix 1: Power Conversion Efficiencies Achieved by a Sample of Solar PV Companies	85
Appendix 2: List of Sampled Solar PV Companies.....	86
Appendix 3: Specialist Company Sample	90
Appendix 4: Specialist-Integrator Company Sample	92
Appendix 5: Partial-Integrator Company Sample	93
Appendix 6: Full Integrator Company Sample	94
Glossary	95

List of Tables

Chapter 2: The Solar PV Sector Overview	3
Table 2.1: Total installed generating capacity of solar PV in selected countries of the EU in 2006 - 2008 (MW).....	5
Table 2.2: Mergers and acquisitions in the European solar power market in 2008.....	8
Table 2.3: Comparison of trough and central receiver/tower systems.....	9
Table 2.4: Concentrated solar power plants in operation in Europe.....	10
Table 2.5: Feed-in tariffs in Germany for solar PV for 2009, 2010 and 2011 (EUR/MWh).....	14
Table 2.6: Feed-in tariff rates in France for solar PV in 2009	14
Table 2.7: Feed-in tariff rates in Spain for solar PV for installations commissioned from 29 September 2009	15
Table 2.8: Feed-in tariff rates in Portugal for installations commissioned in 2009.....	16
Table 2.9: Feed-in tariff rates in Italy for systems installed before December 2009 (EUR/MWh)	16
Table 2.10: FIT rates and fixed premiums in the Czech Republic for projects commissioned after 1 January 2009	17
Table 2.11: Greek FIT rates for new solar PV installations in 2009 (EUR/MWh).....	18
Table 2.12: The application of technology banding in Wallonia with the minimum purchase price	18
Chapter 3: Solar PV Industry Analysis.....	21
Table 3.1: Global polysilicon wafer market share in 2006.....	24
Table 3.2: Domestic electricity prices (excluding taxes) in the EU from 2004 to 2008 (EUR/kWh).....	33
Table 3.3: Comparison of the levelised electricity generation cost of selected technologies (EUR/MWh).....	36

Table 3.4: Profile of a sample of major international solar project developers.....	38
Table 3.5: Research and development expenditure for a sample of integrated solar PV firms (EUR).....	39
Table 3.6: Public budgets for the solar PV sector research and development in selected countries in 2007	40
Table 3.7: Number of companies active in each segment of the value chain	47
Table 3.8: Percentage of companies sampled adopting each strategic integration approach.....	48
Table 3.9: Operating revenue and operating profit from different vertical integration strategies	48
Table 3.10: Results from annual financial statements of specialist companies.....	49
Table 3.11: Balance of specialist companies sampled	59
Table 3.12: Balance of specialist integrated companies sampled.	65
Table 3.13: Balance of partially integrated companies sampled.....	72

List of Figures

Chapter 2: The Solar PV Sector Overview	3
Figure 2.1: Diagrammatic representation of the solar PV industry.....	4
Figure 2.2: Financing continuum for a typical renewable energy technology	6
Figure 2.3: Global new third-party investment in renewable energy by technology in 2008 (USD billions): Total USD 121 billion.....	7
Figure 2.4: Growth in global VC and PE renewable energy investment by selected technology	7
Chapter 3: Solar PV Industry Analysis.....	21
Figure 3.1: The solar PV value chain.....	21
Figure 3.2: Global polysilicon production capacity by country in 2007 (tonnes).....	22
Figure 3.3: Global polysilicon production capacity by company in 2007 (tonnes)	23
Figure 3.4: Solar cell production by country/region in 2008 (GW).....	25
Figure 3.5: Top 10 solar PV cell manufacturers in 2007.....	25
Figure 3.6: Value-added production costs for Chinese crystalline solar PV modules.....	28
Figure 3.7: Value-added production costs for European crystalline solar PV modules.....	28
Figure 3.8: Value-added production costs for a crystalline silicon solar PV module producer	29
Figure 3.9: Approximate value-added production costs for crystalline silicon solar PV systems	29
Figure 3.10: Relationship between retail electricity price and levelised generation cost of solar power.....	30
Figure 3.11: Comparison of yearly irradiation incident on optimally inclined photovoltaic systems in a sample of European countries.....	31
Figure 3.12: Consumer electricity prices in a sample of European countries in 2008 (EUR/kWh, excluding taxes).....	32
Figure 3.13: Solar irradiation and domestic cost of electricity in Europe in 2008	34
Figure 3.14: Levelised generation cost of solar power relative to solar irradiation and consumer electricity prices in a sample of European countries	35
Figure 3.15: Progress towards consumer grid parity in Europe by 2020.....	36
Figure 3.16: Cost breakdown for crystalline silicon ground-based PV systems	37
Figure 3.17: Relationship between government incentives, research and development funding and power conversion/production efficiency improvement	39
Figure 3.18: Sample of solar cell and module power conversion efficiencies.....	40
Figure 3.19: Total cost of ownership breakdown over 20 year system lifespan	43
Figure 3.20: Relationship between government incentives and total cost of ownership of solar power systems.....	44
